

Rhode Island Department of Transportation
Main Road Resurfacing Project

The State Resurfacing Project for Main Road from the State line to the Main Road Rte. 24 Bridge will be starting March 23, 2009 and the completion date is September 21, 2009. National Grid will be installing new gas lines and gas mains prior to resurfacing. Included in the project are the updating of existing sidewalks with concrete, rehabilitation of existing curbing, replacement of existing guardrail, resurfacing the roadway, and new traffic lines.
